B. USE OF ESTIMATES

The preparation of financial statements in conformity with AS and GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities on the date of financial statements and reported amounts of revenue and expenses for that year. Actual result could differ from these estimates. Any revision to accounting estimates is recognized in the period in which the results are known/materialized.

C. REVENUE RECOGNITION

- b) **Intangible Assets:** -The provision of the Accounting Standards for the time being in force is applied i.e, as per AS-26.

F. IMPAIRMENT OF ASSETS:

In accordance with AS-28 on 'Impairment of Assets' prescribed by the Companies (Accounting Standard) Rules, 2006 where there is an indication of impairment of the Company's assets related to cash generating units, the carrying amounts of such assets are reviewed at each balance sheet date to determine whether there is any impairment. The recoverable amount of such assets is estimated as the higher of its net selling price and its value in use. An impairment loss is recognized in the statement of Profit and Loss whenever the carrying amount of such assets exceeds its recoverable amount. If at the balance sheet date, there is an indication that a previously assessed impairment loss no longer exists, then such loss is reversed and the assets restated to extent of the carrying value of the asset that would have been determined (net of amortization / depreciation), had no impairment loss been recognized.

G. INVESTMENT

Long-term investments are carried at cost and provision is made to recognize any decline in the value other than temporary in the value of such investments.
